

Qlik NPrinting – Qlik reporting solution

Qlik NPrinting is the enterprise reporting solution that integrates with **Qlik Sense** and **QlikView**. It enables users to create, manage and distribute reports.

Qlik NPrinting:

- Allows **report scheduling** and **distribution**
- Combines several sources in one report (QS or QV)
- Allows users to subscribe to reports from **NewsStand**
- Offers wide range of report formats (MS Office, pdf, html)
- Embeds **Microsoft Office** environment
- Includes **PixelPerfect** capabilities
- Supports the following **Report Destinations**: Qlik Sense Hub, Folders, NewsStand, and Email
- Uses **Filters** and **Conditions**
- Supports **On-Demand** report generation (QV)
- Supports Report banding
- Allows 3rd party extensions
